Opis nemovitosti

Land in an attractive location below main road, with amazing open sea view, second row to the sea.

The plot is located just below the road, second row to the sea, regular shape of plot. It is located in a small bay located near picturesque island village of Brna, while tourist bay Prizba is only a couple of kilometers away.

The total land area is 400m². Slightly sloped terrain, no need for major building excavations.

This attractive location is located on the southern coast of the island of Korcula, surrounded by pine forest and amazing wide open sea view over the bay and nearby archipelago.

This building plot is located on the site where holiday homes and villas are usually built, which makes this parcel a great opportunity for family holiday home construction, since this building land is one of the last building plots on the southern coast of the island of Korcula.

Sea access is provided. All the necessary infrastructure is located nearby.
